BUSINESS SUMMARY

This branded 6-pump gas station with 4-bay auto repair center has been in business at the same location for over 25 years. The current owner purchased the business in 2019. The business was shut down for 10 months in 2020 due to COVID and then in October of 2020 the owner installed a new manager and became an absentee owner. The business offers auto and truck general repair and maintenance including brand name tires, alignments, VA State Inspections, and optional U haul rentals. Due to its excellent location gas sales are currently producing a 30 to 40 cent gas profit.

Located in one of the busiest intersections in Charlottesville, VA, this repair center enjoys a great local reputation with many loyal customers. The business does little or no advertising but still attracts plenty of new and repeat work. The shop recently acquired fleet service contracts for repair of USPS and U-Hall vehicles in the area. The shop also offers U-Hall truck and trailer rentals.

The new Manager purchased the shop using a sellers note about 18-months ago Seller has other business interests that severely limit his available time for this shop. Because of this, the store is closed on Saturday and Sunday, creating a nice opportunity for more income. When the store was open on Saturdays under the previous owner, he claimed 30-40 percent of the weekly volume came in on Saturday.

The sale includes all assets, 3-lifts, tire mounting / balancing / alignment equipment, office gear, and a nice web site. Inventory sold separately at cost. Two technician's and one helper will stay.

This is an excellent opportunity for a young auto technician to build a solid business with a six-figure income from year one! Contact Agent for more information.

GROWTH OPPORTUNITIES

The business will see growth by expanding work hours to include the weekends and incorporate more marketing techniques. A robust social media campaign would be recommended for low cost and high results.

Simple lot signs and banners promoting service specials would be seen the more than 46,000 vehicles per day according to the VA Department of Transportation Daily Volume Estimate.

Direct sales to business owners would increase commercial service work.
